About the project

This project aims to uncover the attributes of unicorn companies, valued at over \$1 billion using SQLite and R Programming analysis. Specifically, it will investigate the following:

- 1. Which unicorn companies have had the biggest return on investment?
- 2. How long does it usually take for a company to become a unicorn?
- 3. Which countries have the most unicorns?
- 4. Which cities appear to be industrial centers?
- 5. Which investors have funded the most unicorns?

Data Information

The dataset used in this analysis contains records of 1060 unicorn companies obtained from <u>data playground</u> of Maven Analytics.

Company = Company name

Valuation = Company valuation in billions of dollars

Date Joined = The date in which the company reached \$1 billion in valuation

Industry = Company industry

City = City the company was founded in

Country = Country the company was founded in

Continent = Continent the company was founded in

Year Founded = Year the company was founded

Funding = Total amount raised across all funding rounds in billions (B) or millions (M) of dollars

Select Investors = Top 4 investing firms or individual investors (some have less than 4)

Data Information

1 Company	Valuation	Date_Joi	Industry	City	Country	Continent	Year_Founded	Funding	Select_Investors
Bytedance	\$180B	2017-04-07	Artificial intelligence	Beijing	China	Asia	2012	\$8B	Sequoia Capital China, SIG Asia Investme

Data Cleaning

In this project we mostly use SQLite to clean the data and use R Programming in complex process.

Data Cleaning steps including:

- Check duplicates value
- Check missing value
- Strftime with date joined column into individual columns (Year, Month, Day)
- Drops rows that do not meet conditions (value < \$1M and Unknow)
- Change format currency (ex. \$1M → 1000000)
- Fixing data types and spell errors

Which unicorn companies have had the biggest return on investment?

Zapier, Dunamu, Workhuman, CFGI and Manner companies are the top 5 companies with the highest Return on Investment (ROI) among unicorn companies.

! Company	Industry	Country	City	Continent	Date_Joined	Valuation	Funding	ROI
Zapier	Internet software	United States	Sunnyvale	North America	2021-01-14	4000000000	1000000	3999
Dunamu	Fintech	South Korea	Seoul	Asia	2021-07-22	9000000000	71000000	125
Workhuman	Internet software	Ireland	Dublin	Europe	2020-06-23	1000000000	9000000	110
CFGI	Fintech	United States	Boston	North America	2021-09-15	2000000000	19000000	104
Manner	Other	China	Shanghai	Asia	2020-12-24	1000000000	10000000	99
DJI Innovations	Hardware	China	Shenzhen	Asia	2015-01-23	8000000000	105000000	75
GalaxySpace	Mobile & telecom	China	Beijing	Asia	2020-11-17	1000000000	14000000	70
Canva	Internet software	Australia	Surry Hills	Oceania	2018-01-08	40000000000	572000000	68
II Makiage	E-commerce & dir	United States	New York	North America	2022-01-10	2000000000	29000000	67
Revolution Precra	Other	Philippines	Manila	Asia	2017-10-23	1000000000	15000000	65

How long does it usually take for a company to become a unicorn?

This data reveals that while some companies achieved unicorn status immediately upon founding, the longest recorded journey to unicorn hood was 37 years. On average, startups took approximately 6.9 years to reach a valuation of one billion dollars.

The top 5 companies that achieved unicorn status in the shortest amount of time are Ola Electric Mobility, Devoted Health, Instacart, Revolut and Stripe.

! Company	Industry	Country	City	Date_Joined	Year_Founded	how_long_to_become_unicorn
Ola Electric Mobility	Auto & transportation	India	Bengaluru	2019-07-02	2019	0
Devoted Health	Health	United States	Waltham	2018-10-16	2017	1
Instacart	Supply chain, logistics, &	United States	San Francisco	2014-12-30	2012	2
Revolut	Fintech	United Kingdom	London	2018-04-26	2015	3
Stripe	Fintech	United States	San Francisco	2014-01-23	2010	4
Bytedance	Artificial intelligence	China	Beijing	2017-04-07	2012	5

Which countries have the most unicorns?

It is interesting that United States has the largest share of unicorn company total 555 companies.

China and India, the countries with the largest share of the world population have 170 and 65 companies

! Country	count(company)	Industry
United States	555	Other
China	170	Artificial intelligence
India	65	Edtech
United Kingdom	43	Fintech
Germany	25	Data management & analytics
France	23	Health
Israel	20	Cybersecurity
Canada	18	Fintech
Brazil	16	Fintech

Which cities appear to be industrial centers?

! City	Industry	num_company	Percentage
San Francisco	Fintech	222	20
Surry Hills	Internet software & services	203	19
Shenzhen	E-commerce & direct-to-consumer	109	10
Beijing	Artificial intelligence	84	7
Waltham	Health	73	6
San Francisco	Supply chain, logistics, & delivery	56	5
Hawthorne	Other	56	5
Boston	Cybersecurity	50	4
San Francisco	Data management & analytics	40	3
San Francisco	Mobile & telecommunications	37	3
Beijing	Hardware	34	3
Shanghai	Auto & transportation	31	2
Bengaluru	Edtech	28	2
San Francisco	Consumer & retail	24	2
Gurugram	Travel	14	1

Fintech and Internet software & services have about 39% of total unicorns.

The e-commerce & direct-to-customer industry also has a significant share of unicorns 10%.

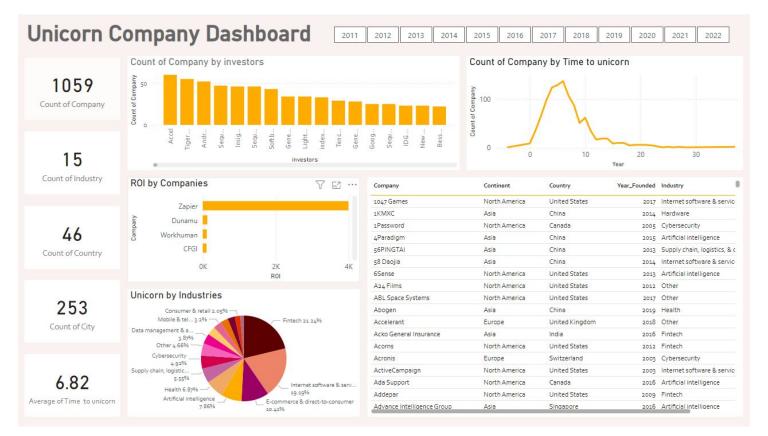

Which investors have funded the most unicorns?

The data shows that Accel is the top investor with 60 companies, followed by Tiger Global Management 55 companies and Andreessen Horowitz 53 companies.

Sequoia Capital and Sequoia Capital China may be the same company, but they are interested in investing in different companies.
